

10/003 Landscaping

Objective

The objective of this policy is to provide requirements and identify benchmarks for the planning, design and installation of landscaping on Town owned or managed properties, including public open spaces (POS), urban landscape areas, and facilities. This policy will deliver the following outcomes:

- Encourage and support the development of aesthetically pleasing landscapes that enhance the unique elements of the Town whilst maintaining a level of consistency and sustainability;
- Encourage the use of plant species that will endure the Pilbara environment whilst providing an element of shade and sustenance;
- Ensure the development of landscaping treatments that provide (or don't inhibit) access to service corridor for the public utilities located within the verge area;
- Encourage a landscaping form which is economical in its water and maintenance requirements;
- Provide a means for minimising soil erosion;
- Establish a safe landscaping environment by applying Crime Prevention Through Environmental (CPTED) principles;
- Ensure equitable access and inclusion for people with disabilities by applying principles included in the Town's Disability Access and Inclusion Plan (DAIP).

This policy will also provide guidance for the landscaping development of private properties.

Content

Landscaping on urban landscape areas, in public open spaces and facilities provides an opportunity to enhance the aesthetics of the Town and improve the outdoor lifestyle of the community. It is the Town's responsibility to ensure that these areas are developed to a safe, sustainable and maintainable standard.

1. Application Process

Developers and property owners must submit an application to the Town for approval of landscaping treatments prior to commencing any work. Applications can be submitted to the Town via submission of a Verge Treatment Application form or Application for Vehicle Crossover Form, located on the Town of Port Hedland website, or by request from (08) 9158 9700.

All applications must include a plan showing the layout and location of landscaping, irrigation and information on plant species.

Applications will be assessed in accordance with this Policy, relevant Local Laws and supporting documentation. Applicants will be advised of any known work scheduled by the Town that may affect their application.

Applicants must not commence any landscaping works until the Town grants approval in writing.

2. General Conditions

- a) In terms of verge treatments, the property owner agrees to maintain the area free from hazards. Failure to comply may result in removal of the hazard and/or treatment by the Town at the owner's expense.
- b) In terms of verge treatments, the property owner agrees to indemnify the Town against all claims which may arise as a result of the treatment.
- c) The Town reserves the right to remove any verge treatment for the purpose of carrying out works. Reinstatement of approved verge treatments shall be carried out by the Town in consultation with the property owner.
- d) The owner accepts responsibility for removal and reinstatement of landscaping if required by public utility providers.
- e) No assistance shall be provided by the Town for development, ongoing operation, or maintenance costs, unless specified otherwise during the approval process.
- f) The property owner shall be responsible for repairs to any damaged infrastructure occurring during the installation of landscaping.

3. Maintenance

The property owner shall be responsible for maintenance of all landscaping on the verge, unless agreed otherwise during the approval process.

Developers of landscaping treatments on Town owned or managed properties, including urban landscape areas, public open space and facilities, shall be responsible for the maintenance of the landscaping for a period of 18 months, unless negotiated otherwise. A maintenance schedule shall be submitted to the Town for approval. Handover of maintenance to the Town after this period shall be conditional upon coordinated inspections, approvals, training and supply of all as constructed and warranty information.

4. *Guiding documents*

The *Public Open Space Strategy* is used as a basis for strategic planning of the management, provision and investment in current and future POS.

The *Landscape Guidelines* document has been developed to provide a clear framework for the design, construction and maintenance of POS and Verge Treatments.

The *Irrigation Specifications* have been developed to ensure appropriate equipment and materials are used to design, install and maintain the Town's irrigation systems.

The *Weed Management Strategy* has been developed to provide a strategy for integrated weed management within the Town's POS and urban landscape areas.

The Landscape Guidelines, Irrigation Specifications and Weed Management Strategy will be reviewed internally by Town Officers yearly under the direction of the Manager Infrastructure Operations.

5. *Verge Treatments*

The following treatments are permitted to be installed on verges:

- Lawn
- Irrigation
- Gardens
- Street trees
- Hardstands
- Compacted material
- Crossovers

Refer to the Landscape Guidelines and Irrigation Specifications for conditions and advice on the installation of verge treatments.

For information on the construction of crossovers refer to Policy 9/005 Vehicle Crossovers.

6. *Irrigation*

All applicable verge treatments must be irrigated through a connection to the property owner's water supply. The following points should be considered when irrigating within the verge:

- Contact Dial Before You Dig (1100) and other service and utility providers prior to commencing installation to ensure that underground services and infrastructure are not damaged and correct clearances are maintained.
- Design and operation must comply with Water Corporation guidelines and water restrictions current at the time of development.
- Irrigation design shall apply principles to ensure sustainable use of water and adhere to the Town's Irrigation Specifications.
- Irrigation design and operation must not impact upon road pavements, footpaths or other infrastructure on the verge.

Refer to the relevant Local Laws Landscaping Guidelines and Irrigation Specification for further information.

7. *Public Open Space, Urban Landscape Areas and Facilities Landscaping*

All public open space, urban landscape areas and landscaping at facilities owned or managed by the Town must be developed in accordance with the objectives of this Policy.

The relevant Local Laws, Public Open Space Strategy, Landscaping Guidelines, Irrigation Specifications and the Weed Management Strategy will provide information to developers to ensure that the Town's requirements are met. The landscaping design must not impact on the functionality of the relevant space, specifically for the open stormwater drainage network.

Each application will be assessed in consultation with these guidelines, relevant stakeholders, the developer and the Town's officers.

Definitions

<i>Road Reserve</i>	The portion of land between the front property boundaries that contains both verges and the road
<i>Verge</i>	The section of the road reserve between the property boundary and the road kerb line.
<i>Verge Treatment</i>	Any soft or hard landscaping installed within the area of the verge excluding street trees.
<i>Street Tree</i>	A tree installed within the road reserve.
<i>Crossover</i>	The portion of a driveway within the verge providing access from the road to the property boundary.
<i>Hazard</i>	The source of potential damage, harm or adverse effects on something or someone.
<i>Public Open Space (POS)</i>	Recreational spaces which include local, neighborhood, district and regional parks as per <i>The Town of Port Hedland Public Open Space Strategy</i> .
<i>Urban Landscape Areas</i>	Landscape areas which include roads or along road reserves and thoroughfares including carparks.
